Choose the Ice

DICE

Hard clear ice cube with unique "rhomboid" shape 7/8" x 7/8" x 7/8" in dimension, 48 cubes per pound of ice, maximum cooling with 98% ice to water ratio.

HALF DICE

Hard clear ice cube with unique "rhomboid" shape 3/8" x 1-1/8" x 1-1/8" in dimension, 96 cubes per pound of ice, maximum cooling with 98% ice to water ratio.

OCTAGON

Hard clear, individual ice cube with unique "octagon" shape 1-3/8" x 1-3/8" dimension, maximum cooling with 98% ice to water ratio.

CRUSHED

Manitowoc half dice cubes crushed into small pieces for easy chewing and maximum cooling with 98% ice to water ratio.

NUGGET

SoftQube™ texture easy to chew but hard enough to be dispensed without hand scooping, 83% ice to water ratio.

FLAKE

Small soft pieces of ice with a 65% ice to water ratio. Perfect for displaying products and hand scooping into drinks.

Choose the Dispenser

Servend's patented Rocking Chute™ ice dispense mechanism precisely regulates ice flow and an internal Paddle-wheel™ technology ensures all stored ice is dispensed.

Manitowoc SPA and SFA high volume floor-standing dispensers feature a patented "push for ice" dispense mechanism. Each unit offers a water valve option and coin or room card ice dispense activation.

With a narrow 14" depth and QuietQube® technology, the Manitowoc Ice/Beverage ice machine provides the operator with easy access and quiet no-heat gain operation.

Flavor Magic™ gives beverage customers more flavor choices without using additional counter space. A simple button push dispenses a shot of flavor from the valve component.

The icepic delivers savings on equipment purchase, installation cost, and maintenance.

Servend **icepic**® beverage dispenser allows the user to choose between cube or crushed ice via a built-in ice crusher mechanism from a single ice machine placement.

Manitowoc's countertop nugget ice maker/dispenser features one-hand dispense activation. Choose standard stainless steel activation arm or optional touchless dispense mechanism.

The Multiplex Soda Factory™ is a high capacity beverage dispensing system that supplies multiple dispensing stations. Compact back room package organizes components into one location.

Servend's S-Series ice dispensers feature a no-hassle one-piece structural base, strengthened drive train, and modular design, all resulting in a more durable ice dispenser.
